SKILL..

IMMEDIATE DENTURES

CO-RE-GA not only retains the denture during the healing process; but practically enables the patient to "rebase" his denture daily, while the progressive alteration in the fit is taking place.

CO-RE-GA is not advertised to the public

**"I MAKE MY INLAYS NOW WITH
HUE-LON—RIGHT IN MY OFFICE"**

Now you can provide your patients with esthetic inlays made of Hue-lon—an advanced inlay material developed by Caulk and Du Pont especially for dentistry.

Hue-Lon inlays match the patient's individual tooth coloring so exactly as to be *invisible dentistry*.

And you can make Hue-lon inlays right in your own office with only the Inlay Package illustrated to be added to your regular laboratory equipment.

You'll be amazed at the easy Hue-lon technic. You'll be delighted with the results you can achieve—and so will your patients.

The Inlay Package

\$13.75

- | | |
|--|--|
| 6 Quarter Portion Jars
Hue-lon Powder | 2 Sticks Inlay Wax |
| 1 H. P. Bottle Hue-lon
Liquid | 1 Powder Measure |
| 1 H. P. Bottle Plas-cote | 1 Liquid Dropper |
| 1 Hue-lon Shade Guide | 2 Mixing Jars |
| 1 Stick Sticky Wax | 1 Preparation for Class
II inlay (mounted on
pedestal) |

Another Patient...

from a man you barely knew!

REMEMBER him, that new dentist in town? In practice only a few months, then off for Army service. But already you feel his going. For some of his patients are now *your* patients, and your responsibility is heavier.

With one dentist of every 11 now out of civilian practice and the number soon to be one of every 5, this story will repeat with doubled effect! To carry the load, you and every other civilian dentist must speed appointments without sacrifice of skillful technique, protecting patients' comfort while conserving your own time and energy.

We suggest more frequent reliance on anesthesia with Cook-Waite solutions — Novocain with Cobefrin or Novocain-Pontocaine with Cobefrin. Both are dependable and well-tolerated, inducing profound anesthesia quickly and smoothly. Their dif-

ference lies in the longer operating time provided by Pontocaine in the latter solution. Together, they more than adequately meet every dental requirement for a local anesthetic. Specify both with your next order.

THE CALENDAR

The organizations listed below will hold functions at the Palmer House during the period of the Midwinter Meeting

February 21st: American Academy for Plastics Research in Dentistry
American Academy of Restorative Dentistry
American Association of Public Health Dentists
American College of Dentists Regents Meeting
American College of Dentists Illinois Section (Luncheon)
Delta Sigma Delta (Dinner)
International College of Dentists Regents Meeting (and Dinner)
Meyer Study Club of Chicago (Dinner)
National Board of Dental Examiners
Psi Omega Fraternity (Dinner)
Xi Psi Phi Fraternity (Dinner)

February 22nd: American Association of Dental Editors (Luncheon)
American College of Dentists Regents Meeting
American Dental Association Committee on Economics
Pierre Fauchard Academy (Luncheon)

February 23rd: Procurement and Assignment Committee Meeting
Pierre Fauchard Academy (Luncheon)
American Association of Orthodontists Central Section (Luncheon)

February 24th: N.U.D.S. Alumni Association (Luncheon)
University of Illinois College of Dentistry (Luncheon)
C.C.D.S. Alumni Association (Smoker)
St. Louis University Alumni Association (Luncheon)
C.C.D.S. Class of 1918 (Luncheon)
C.C.D.S. Class of 1928 (Luncheon)

February 25th: Root Canal Therapy Group (Dinner)

March 2nd: **West Suburban:** Regular monthly meeting, Tuesday, at the Oak Park Club. Dinner will be served promptly at 7:00 p.m. Dr. O. W. Silberhorn will speak on "Crown and Bridge." After the scientific session there will be music, entertainment and refreshments.

March 9th: **West Side:** Regular monthly meeting to be held at Midwest Athletic Club. Election of officers followed by an excellent program which is being arranged by Program Chairman William R. Gubbins.

General Sessions Offer Variety of Subjects

Paul V. McNutt Heads Impressive Array of Speakers

Dr. Harry H. Shapiro of the College of Physicians and Surgeons of Columbia University, co-author with Raymond C. Truex, Ph.D., also of Columbia, of the prize winning essay "The Temporomandibular Joint and Auditory Function," will appear at the First General Session of the Midwinter Meeting on Monday morning. This paper was judged the best in the nation-wide contest sponsored by the Chicago Dental Society, and is the result of extensive study. The authors state that the current belief, in regard to this important function, is based solely on speculation and back their assertions with scientific proof. Dr. Shapiro is no novice in the field of dental research and has made frequent contributions to the literature. For the Monday evening session the Program Committee will present someone of national prominence who will cover the subject of "Post War Planning."

MANPOWER

The Third General Session of Tuesday evening will provide a discussion of "America's War Manpower." Commissioner Paul V. McNutt will be the first speaker of the evening and he will be followed by Dr. C. Willard Camalier, Chairman of the A.D.A. War Service Committee. Mr. McNutt is, without doubt, one of the country's outstanding public speakers. Since his term as Na-

tional Commander of the American Legion he has been in the spotlight and right now has powers second only to the Commander in Chief. He will speak on the broader aspect of the manpower problem. Dr. C. Willard Camalier, a past-president of the A.D.A., has been closer to Mr. McNutt than any other man in the profession. He has given unstintingly of his time, since war was declared, and comes before the general assembly amply qualified to speak on dentistry's part in the war effort.

HUDSON AND STREVEY

The Fourth General Session will, in many respects, climax the meeting. Two of the most popular speakers who appeared before the Institute of War Medicine and Surgery will participate. G. Donald Hudson, Professor of Geography at Northwestern, will discuss "Geography of the Battle Areas," and Tracey E. Strevey, chairman of the Department of History at the same institution, will describe "The Cultural Patterns of Our Enemies." Professor Hudson has had a variegated and interesting career. He was born in Japan of missionary parents but received his formal education in the United States. He was one time Director of the Middle School of the American University of Bierut, Syria. He has travelled all over the world and knows places and people. He

(Continued on page 21)

Notes on the Midwinter Meeting Program

by M. J. COUCH, *Chairman*

Since there are a number of changes in the preparation and the manner of presentation of the program for the Midwinter Meeting, it is deemed advisable that an explanatory note be made. Generally speaking the Meeting has been well covered in previous articles by James Keith, giving information as to the essayists, clinicians, etc. It is the purpose of this article to inform you as to how the program will operate. The first changes to note are in the General Sessions. There will be four instead of two, the reason being the omission of the usual Tuesday and Wednesday night social functions. The programs being arranged for these Sessions are of such character that the committee has no reluctance in recommending them.

Next a word or two relative to the method of handling the traffic. An effort has been made to relieve congestion by staggering the starting and finishing time of the limited attendance clinic and essay programs. Theoretically this should help materially. Improvements have been made in the operation of the elevators. We believe these will be apparent to you.

ESSAY DIVISION

Some modifications have been made in the Essay Division. These changes are drastic compared to the familiar programs of the past, the most radical being the elimination of the Section Division. When the Sectional Divisions such as Full Dentures, Oral Surgery etc., are employed, it is necessary to assign all essays to a section. This assignment is entirely arbitrary. Many subjects could readily be assigned to three or more sections, using equally good judgment in all assignments. Our main reason for the change in eliminating the sections is to enforce a more careful reading of the program. This will avoid the possibility of overlooking an interesting paper which might result from a casual reading of a section program. Therefore the program

will be set up on a day basis giving the essayists for that day with subjects, starting time, length of essay, room number and floor.

QUESTION AND ANSWER PROGRAM

The innovation of the Meeting no doubt is the Question and Answer Program. The committee has done a tremendous amount of work preparing this program. Many are acquainted with it by this time and have had a chance for appraisal by studying the questions which appeared in *The Fortnightly Review* for February 1. Of course, additional information will be obtained from this program through the questions asked by the audience in the thirty minute period set aside for that purpose. The Program Committee invites criticisms and suggestions for the guidance of future programs. Included in the program is the four day Question and Answer Sessions in the Sky Room where information relative to income tax problems can be secured.

The Limited Attendance Clinics are receiving a large number of advance reservations. Reservations are made in the order they are received.

The General Clinics are divided into two sections. Two half days are given to the profession and many interesting and worthwhile demonstrations will be presented. Two half days will be presented to the exhibitors for technical demonstrations; certain limitations have been imposed to assure demonstrations of the highest quality.

From all reports to date the attendance will be greater than anticipated at earlier dates.

I want to thank all the members of the various committees who have done such splendid work. They have given unstintingly of their time and effort. No one person can claim a major part of the credit. It is the result of a united effort by all.

HONOR ROLL

Members of Chicago Dental Society in Armed Forces

We are publishing below the names of the men who appear on the Honor Roll, and we will appreciate information about any of our members who are in the armed forces and whose names are not included so that we may give them this recognition.

- Abrahamson, Charles J., Great Lakes, Ill.
Adler, Leo S., DC Station Hospital, SCV 1947, Camp Luis Obispo, Calif.
Agster, William C., Station Hospital, Camp Adair, Oregon
Aison, Emil L., Nichols General Hospital, Louisville, Ky.
Allison, S. E., 1931 N. Lincoln Park West, Chicago
Alpern, E. W., Station Hospital, Army Air Base, Lincoln, Nebraska
Alson, Axel R., 732nd M.P. Bn., Camp McCoy, Wisconsin
Altern, A. H., Navy Pier, Chicago
Altheim, Irwin J., Station Hospital, Fort Knox, Kentucky
Amaturo, Frank W., 3rd Arm. Field Art. Bn., Fort Riley, Kansas
Anderson, A. Gordon, DC, USNR, Marine Barracks, New River, N. C.
Anderson, John A., Station Hospital, Keesler Field, Biloxi, Miss.
Andrews, Andrew S., Station Hospital, Wichita Falls, Texas
Archer, Evert A., USNR H. & S. 21st Marines, Camp Elliott, Calif.
Aronoff, Sidney, 16th Hospital Center, Camp Bowie, Texas
Asher, Carl A., 11th Field Hospital, Camp Carson, Colo.
- Barker, Ray S., 213 Forest Ave., River Forest, Ill.
Barth, Lee D., DC, 10th Inf., APO No. 5, c/o Postmaster, New York, N. Y.
Bauer, Mortimer B., DC, Station Hospital, Camp Howze, Texas.
Baum, Henry B., Dental Dispensary Bldg. 109, Great Lakes, Illinois
Baum, Maurice, 6th Armd. Div., 76th Armd. Med. Bn., Co. B, APO 256, c/o Postmaster, Los Angeles, Calif.
Bayer, S. D., 7th Armd. Div. 77th Med. Bn. APO 37, Camp Polk, La.
Becker, Leonard H., DC San Antonio Aviation Cadet Center, San Antonio, Texas

EDITORIAL

ELIMINATING TRAFFIC CONGESTION AT THE MIDWINTER MEETING

The prominent difficulty that developed last year in the transfer of the annual Midwinter Meeting from the Stevens Hotel to the Palmer House was the human traffic congestion that developed in certain quarters. The congestion was particularly noticeable in the vicinity and use of the hotel elevators. The unfamiliar surroundings were in a large measure responsible for the trouble. Many struggled to get into elevators for a ride of but one or two floors. The stairways were not utilized as they had been at the Stevens. This year, we believe, there will be less congestion because many will be better acquainted with the hotel arrangement, because they will know where they are going and how to get there on foot, and because of the staggered starting time of the essays and clinics. Much will depend, however, on the cooperation in the utilization of the stairways by those who attend the meeting. We suggest that those who attend learn the location of the stairways and use them.

The attitude of the elevator operators last year in many instances was not conducive to tolerance for the service given. The male operators have been replaced with personable young ladies, a change which should assist the elevator management. The reception booths will be located on the mezzanine floor which will make them more prominent and accessible. One tangible way of relieving congestion in the registration area is for all members to pay their dues prior to the meeting. The time of many individuals will be saved if dues are paid in advance.

CHICAGO PUBLIC SCHOOL DENTAL HEALTH PROBLEM

Mayor Edward J. Kelly has announced recently in the public press that ten dentists will be added to the Board of Health dental staff to man some of the dental offices which were established in the Chicago Public School System with the assistance of the Works Progress Administration. This announcement is encouraging. Forty-six of these clinics did not reopen with the fall school term because the W.P.A. financial support of the project was withdrawn July 1, 1942.

Mayor Kelly's attention was called to this situation in an open letter from the Dental Hygiene Health Institute published in the December 1 issue of *The Fortnightly Review*.

Dental caries in the mouths of the Chicago school children does not know that W.P.A. funds have been withdrawn; dental disease is continuing at the same rate as it was last year. If the school clinics were needed last year, and most everyone agrees that they were, then they are also necessary today. A considerable sum of public money was invested in equipment for these school clinics which are at present unused. While Dr. Carl Greenwald, Chief of the Dental Hygiene Unit, states that the need for school clinics for the remedial treatment of indigent children is not as acute as formerly because of the improved economic status of the population, dental examinations and health education are still important phases of the school program.

All those individuals and organizations concerned with the health of the Chicago school children should work for a solution of the problem. Ways and means for adequate and permanent financial support should be sought.—*Robert G. Kesel.*

Minutes of Regular Meeting of the Chicago Dental Society

January 21, 1943

Red Lacquer Room - Palmer House

Meeting called to order at 8:30 p.m.

Motion was regularly made and severally seconded that the reading of the minutes of the previous meeting be dispensed with owing to publication in The Fortnightly Review. Motion carried.

Motion was regularly made and severally seconded that the minutes of the previous meeting be approved as published in The Fortnightly Review of January 1. Motion carried.

Reports of Boards and Standing Committees—none.

Reports of special committees—none.

Unfinished business:

The Secretary read the following resolution pertaining to public announcements by dentists, indicating the substitute final paragraph, which has the approval of the Board of Directors.

"WHEREAS, it is the practice of publishers of media of all kinds to solicit advertisements, commonly called professional cards, from members of the dental profession, and

"WHEREAS, the publication of such cards or advertisements tends to give the dentists concerned public notice to the disadvantage of dentists not so announcing themselves, therefore be it

"RESOLVED, that it is unethical for a member of this Society to insert a professional card in newspapers or in programs for social, church, school and community events, or any similar media, and be it further

"RESOLVED, that it is unethical for a member of this Society to be listed in any directory or list of dentists except those of organized dentistry and the official classified directory authorized by the Illinois Bell Telephone Co. and then only when in conformity with Section 3 of the Code of Ethics, and be it further

"RESOLVED, that proper notice of the adoption of this resolution be pub-

lished in the official magazine."

Motion was regularly made and severally seconded that the resolution be adopted. Motion carried.

New Business:

The Secretary presented the recommendation of the Board of Directors to dispose of the West Side—West Suburban branch boundary matter. It is the Board's recommendation, based upon the decision of an arbitration committee, that the contiguous boundary of the West Side—West Suburban Branches be both sides of Laramie Avenue (5200 west). Motion was then made and severally seconded, that the recommendation of the Board of Directors be approved. Motion carried.

There being no further business the Chairman turned the meeting over to the Acting Chairman of the Monthly Meeting Program Committee, Dr. B. D. Friedman. Dr. Friedman then announced that an all-Chicago program on Oral Surgery problems would be presented. He then presented the essayists, each of whom gave ten minute papers. The speakers and their subjects were as follows:

SPEAKER	SUBJECT
Larry E. Hill	Post-Operative Care
D. Munger Hodgman	Removal of Root Tips
Howard C. Miller	Technic for Local Anesthesia
Kenneth W. Penhale	Sulfa Drugs
Earle H. Thomas	Removal of Broken Hypodermic Needles
Robert J. Wells	Relief of Dry Socket

Dr. Friedman expressed the appreciation of the Society for the excellent program presented this evening and then announced the clinic program to follow. This consisted of clinics presented by each of the speakers on the subject he had discussed in his short essay.

Dr. Friedman then turned the meet-

LETTERS

TWENTY-FOUR HOURS ON CENSORED

Dear Editor:

It is early evening, but darkness has already fallen. The terrific heat of the day has passed, leaving in its wake a warm breathless blanket that covers the entire island.

The moon comes up and, shining with unusual brilliance, silhouettes the palm trees, seemingly snipped from black fabric, against the cloudless sky.

There is a tenseness in the air. Guards have been posted and everyone is in a condition of readiness. Throughout the day, outwardly calm and inwardly eager, we have been awaiting the warning wail of the siren.

Matches are lighted cautiously, the glare and orange glow of the cigarette tip, shielded by closely cupped hands.

Time passes slowly, much too slowly and it is still, much too still.

A slight breeze springs up and creeps through the tattered leaves. The rustling startles a bat, who glides noiselessly across the patches of shadow and light into the roost of a parrakeet. The frightened bird shrieks piercingly, stops, and silence returns to carry on its nightly watch. Occasionally a cocoanut falls, hits the coral spotted earth with a dull thud, rolls several yards and stops. Silence again.

Men wander off to their tents. Fully clothed and drawing their mosquito nets tightly around them, against the ever present malaria-carrier (who buzzes threateningly around) they drop back on cots for a few hours of much needed sleep.

From the swift gathering clouds (you can't imagine how quickly they come up unless you've been here), without warning, quietly, gently at first, and then increasing in volume as it beats down, the rain falls. We get to our feet, reluctantly, throw a raincoat over our

shoulders, go outdoors, drop the sides of the tent, cover the opening at the top, stamp the mud from our feet before entering, uncover, fall back—sleep—will it ever come.

Suddenly, but druggedly we awaken, not knowing what has disturbed us. The mind juggles the intangible bubble of subconscious and reality, trying to decide whether we are awake or had been dreaming. Warning!! Warning!!! The mist is pushed aside—the siren is screaming. In a flash we are up, grab our pistol belt, canteen, gas mask and helmet, dash outside and dive headlong into a fox-hole, only to find several others have preceded us there. Moments, years pass, the siren lazily unwinds, in the distance we can hear the hollow boom of gunfire. Looks as though we are in for it again. Time, ever present time, drags by, the firing ceases, "all clear" is sounded and we pull ourselves back to the tents to toss in restless slumber.

Long before daylight, we are up and at our stations, expectant of more to come. Daylight eventually comes and brings with it the heat of yesterday. A bugle call sound, sluggishly, through the jungle. From behind every bush and tree, it seems, hard sun-tanned faces look incredibly at one another. The bugle call is repeated. Swinging rifles overhead, hooting, bellowing, screaming and charging through the brush, hundreds of men rush down on the bearer of the music, music to *our* ears. Yes—the Marines, despite the long hours and sleepless nights, rally with vigor when MAIL CALL is sounded.

RAMON J. WALLENBORN, D.D.S.

Lt. Ramon J. Wallenborn

USMC Unit 240

c/o Postmaster, San Francisco, Cal.

Dear Dr. Kesel:

In the talk re dental hygienists given by Dr. Tench before the Chicago Dental

(Continued on page 17)

NEWS AND ANNOUNCEMENTS

ASSOCIATION FOR ROOT CANAL THERAPY PROPOSED

A national association of dentists interested in root canal therapy is to be organized during the coming Midwinter Meeting at the Palmer House, it is announced by Dr. John H. Hospers. Details of organization will be perfected at a dinner to be held in Private Dining Room 4 at 6:30 p.m., Thursday, February 25.

Dentists planning to attend the dinner are asked to communicate with Dr. Hospers at 25 E. Washington Street, Chicago. Beginning Sunday, February 21, dinner reservations should be made at the main information desk located in the main lobby of the Palmer House.

LABORATORY ADS OUT OF BUSES AND CARS

Illegal dental laboratory advertisements disappeared from the buses, street cars, elevated and suburban trains as of February 1, it is announced by Dr. Luther W. Hughes, Chairman of the Committee on Legislation and Law Enforcement. Advertising agents for the carriers agreed not to renew any dental laboratory advertising contracts when they expired January 31 after the law was explained to them by Assistant State's Attorney James A. Brown.

DENTAL SALVAGE WEEK MARCH 8-13

Dr. Frank J. Hurlstone, Chairman of the Salvage Committee of the Illinois State Dental Society, has announced that the week of March 8-13, 1943, has been officially proclaimed by the Illinois State Dental Society as Dental Salvage Week. The details of the collection program will be published in the next issue of The Fortnightly Review.

XI PSI PHI

Members of Xi Psi Phi Fraternity attending the Midwinter Meeting are cordially invited to a dinner and entertainment arranged for by the Chicago Alumni Chapter on Sunday evening, February 21, in the Crystal Room of the Palmer House. A feature in entertainment will be a special showing of official motion pictures of the Battle of the Solomons, Raid on Gilbert and Marshall Islands and the Battle of Midway. These films are sound recorded and the latter is in colors. Reservations to Dr. Harold Forslund, Hollycourt 0805, or Dr. Frank Farrell, Vincennes 4343.—*George Blaha, President.*

ALPHA OMEGA

The Alpha Omega Fraternity will hold its annual Midwinter Meeting dinner on Sunday evening, February 21, at the Morrison Hotel. The Fraternity headquarters will be in Room 783 in the Palmer House.

The Alpha Omega Auxiliary will also maintain its own headquarters in the Palmer House.

N. U. 1923 CLASS TO HOLD REUNION DINNER FEBRUARY 24

The class of 1923 of Northwestern University Dental School will hold a reunion dinner in Private Dining Room 9 of the Palmer House, Wednesday, February 24, at 6:00 p.m. A cocktail hour will precede the dinner in Private Dining Room 8 at 5:00 p.m. All members of the class are urged to attend.

ILLINOIS STATE ORAL HYGIENISTS' ASSOCIATION

At the last meeting of the Illinois State Oral Hygienists' Association, Wednesday, February 3, the following were elected as the new officers for the year:

Mary Dite, President; Maureen Olson, Vice President; Mary Sulser, Secretary; Frances Dorsey, Treasurer; Cecelia Adelman and Ruth Kupfer, Board of Directors.—*Jane Rosencrans, Publicity Chm.*

BACTERIOLOGISTS MEET

The Society of Illinois Bacteriologists will hold its Winter Meeting on Friday, February 19, 1943, at the Chicago Illini Union, 715 South Wood Street, Chicago. Dinner will be served at 6:30 p.m. Tickets \$1.02 each. The following program will be presented: *Observations on*

Variant Types of C. Diphtheriae, Howard E. Lind, Senior Bacteriologist, Ill. Dept. Pub. Health, Chicago, Ill.; *Some Factors Affecting the Microbiological Assay for Nicotinic Acid*, J. C. Garey, Ph.D., Bacteriologist, Research Lab., Hiram Walker and Sons, Inc., Peoria, Ill., Co-authors: J. C. Bauernfeind, Ph.D. and C. S. Boruff, Ph.D.; *Studies on the Problem of Insect Transmission of Poliomyelitis*, F. B. Gordon, M.D., Assoc. Prof. of Bact., Univ. of Chicago, Chicago, Ill. Co-authors: Frank M. Schabel, Ph.D., H. R. Reames, Ph.D., and M. E. Snow.

LETTERS

(Continued from page 15)

Society recently, he made several misstatements which I think should be called to the attention of its members. He apparently obtained his information regarding the activities of our Oral Hygiene Committee from a report made about fifteen years ago because it was at least that long ago that we had a "dozen" hygienists operating in "farm communities." At the present time our staff consists of fifty-three dental hygiene teachers who operate in several rural and small urban communities all over New York State. In addition to this we specially train and place several hygienists each year in larger cities. The enclosed folder which we send to school authorities presents in detail our method of operation and some of the results obtained.

I am also far from in accord with Dr. Tench's statements regarding the dental hygienists in private practice and I can only say that it seems to me that he has been most unfortunate in his experiences.

I hope that your society votes to support the hygienist movement in Illinois.

Sincerely,

ARTHUR W. SMITH,
Chairman, Oral Hygiene Committee
of the Dental Society of the State
of New York

Columbia Broadcasting System, Inc.,
410 N. Michigan Ave., Chicago, Ill.
Gentlemen:

Occasionally, I listen to "The Sun-kist" program at 5:15 p.m. from the Columbia Broadcasting System. The program of Monday, January 11, depicting a dentist as one who always inflicts pain, was far from amusing.

My husband, Dr. Charles Ackerman, Jr., is a dentist and studied five years in college to earn his degree, but according to the radio, all dentists are a subject of humor and cause all their patients to scream and groan with pain. I fail to see the humor of the program you presented.

The physicians are looked on with reverence, for instance, the "Dr. Christian" program, they alleviate pain, but according to the radio, the dentists always inflicts pain. I beg to differ with you, my husband extracts teeth painlessly.

The dentist is the one doctor who can save children's teeth and thereby guard their future health and it is about time the radio, which has access to nearly every home in this nation, starts educating the people as to his importance, instead of presenting stories that frighten children and adults away from his office.

It seems it would be possible for you to instruct the writers of your stories to refrain from depicting the dentist as a doctor who always inflicts pain.

Yours truly,

MRS. CHAS. ACKERMAN, JR.
10915 Longwood Drive

We publish the following letter because it expresses the sentiments of many:

NEWS OF THE BRANCHES

SOUTH SUBURBAN

It's now time for our Midwinter Meeting, and I wonder how many of you have sent in your applications for the Limited Attendance Clinics? It seems that all of us should get a great deal out of this meeting since it is to be all business and no frills . . . We have been having quite a bit of excitement in Chicago Heights. There have been a number of burglaries of professional offices, and nearly all of us had our places burglarized. The loss in most cases was very small, although Dr. Broder reported the loss of several bridges and a full upper gold case. He asks that if anyone comes into your office trying to sell something similar to please let him know . . . There hasn't been much news of any of our members taking winter vacations this year, but those very wealthy dentists from Blue Island really get around. E. E. Carlson and his family were down in Edgewater, Mississippi, over the Christmas holidays, and now we hear that Clarence Folkers and his spouse are visiting Home Lawn Mineral Springs in Indiana, enjoying the baths and all that goes with it . . . Lloyd Bettenhausen and Peter Iagmin are going blackface on us. They are participating in the Kiwanis Minstrels, of which Lloyd is the managing director . . . That is all for now—see you at the Palmer House.—*Herman Gornstein, Branch Correspondent.*

KENWOOD-HYDE PARK

The appointing of a nominating committee is a definite indication that spring is just around the corner. We are approaching the end of another successful Kenwood year, directed by our capable president Dr. Elmer Ebert. The following men were appointed as members of the nominating committee: Walter Scanlan, Chairman, Robert Wells, Charles

Waterman, Willard Johnson, and Harry Hartley. They will select the candidates and present the slate at the annual election of officers at the April meeting. Dr. Frank Vorhees and members of the Dr. Meyers study club will present a discussion of Dr. Fred Meyer's theory of balanced and functional occlusion for full dentures at the meeting on Tuesday, April 6. The meeting will be held at the Del Prado Hotel and the lectures will be fully illustrated by color photographic slides . . . Here we are talking about spring and a meeting in April and by the time this news goes to press the annual Midwinter Meeting of the Chicago Dental Society will be in full swing. The weather would seem to indicate that winter is still hanging on. Several Kenwood members will participate at the question and answer section of the Midwinter Meeting. Lester Boyd and John Heisler will be among the speakers and Otto Mast, Walter Scanlan, Jack Flanagan, Chris Davidson and Howard Strange will act as chairmen. Another indication of spring is the recent marriage of that quiet, good looking, dapper, young fellow, Dr. I. Walter Rosenberg and Miss Nora Kanter. Congratulations folks and we wish you happiness and success.—*Howard E. Strange, Branch Correspondent.*

ENGLEWOOD

One again your writer is trying to give you the news of Englewood. There doesn't seem to be very much; guess the fellows are all working so they will be ready for the Midwinter Meeting . . . Peter Christensen left for Columbus, Ohio, to start training in the Dental Corps. He expects and wishes to see overseas duty—Pete says his folks are living in Denmark . . . Jerry Wilher appointed a committee of old friends of the late George Kalk to draw up resolutions. Committee is composed of F. B.

Clemmer, Chairman; George Knapp and Ben Partridge. Resolutions are to be presented at the March meeting. George Kalk was the brother of our Les Kalk . . . Steve Grady and Charles O'Connor are at Great Lakes . . . Bill Phillips has been on the sick list for the last week or ten days . . . This is the last news report before the Midwinter Meeting. Understand there are to be several new ideas given. So be sure to attend February 22-25.—*E. B. Schwalen, Assistant Branch Correspondent.*

WEST SUBURBAN

On January 26 Mr. Fecht appeared before the round table and presented a movie on "Time and Motion Study." On February 2 Mr. Cannon presented a book review of "The Great Offensive," and on February 9 Marshall Solberg inspired the boys with a talk on "George Washington." Dr. M. Massler will speak on "Teen Age Caries," at the February 16 meeting, and on March 2, Mr. Lynn will discuss "Economics." . . . For the twentieth consecutive year Bob Humphrey entertained friends and guests of the A.A.P. and S.F. Society at a wild game dinner . . . H. P. Westaby has joined the ranks of the pedagogues and is now instructing in the Crown and Bridge Department of the University of Illinois Dental School . . . Paul Brederle did a fine job as Chairman of the Past Commanders' Dinner of his Legion Post . . . D. H. Browning, who practiced in Lombard, reported for Naval duty as a Lieutenant at San Francisco . . . Nick Sothras is now a Captain at Camp Barkeley, Texas . . . R. F. Cutrera has also been advanced to the rank of Captain . . . Now that Errol has been acquitted, Frank Young will have to rebut his rebuttal on the Flynn debate . . . Neil Vedder, Floyd Deatherage and John Donnellan from downstate in town and all looking hale and hearty . . . Orchids to the Harold Mulvihills on their new baby daughter . . . Ask John Svoboda to show you the pictures he took of the ice carnival. Incidentally,

John spoke before the West Side Medical Society, January 21, on "Tumors and Oral Lesions." The Gary boys will get a treat next month when he speaks before the Northwest Indiana Dental Society . . . Paul Swanson, ever the faithful reporter, tells us that Art Skupa, now a Lieutenant, left the first of the month for active duty . . . See you at the Palmer House February 22-25.—*Joseph M. Lesina, Branch Correspondent.*

NORTHWEST SIDE

The issue before the annual Midwinter Meeting seems a peculiar place to ask for local branch talent, but Irv Neer feels that with a greater audience, his appeal will not be in vain. The March meeting of our branch is the reason for this appeal. Home talent nite has always been a large evening for the Northwesters, but somehow or other the present meeting approaches with an alarming lack of talent, either available or willing. So if any of our readers feels that that little time saver used in the office might help a fellow member, why not call Irv Neer? I am sure that he will be more than surprised to hear from you . . . On February 18 the branch will lose its treasurer, Corny Lewandowski, to the Army. Corny will report at Fort Hayes, Columbus, Ohio . . . From Tom Severn, stationed in Washington on the Pacific, comes a little tribute to the country of "Cheese, trees and ocean breeze." . . . From Lee Bowerson, Camp Wheeler, Georgia, however, comes word of a siege of pneumonia, blamed strictly on the climate . . . From a less military atmosphere comes the limping Mark Spencer, who tells that practicing for his assignment to the cavalry wasn't received so graciously by his mount. Mark is now getting around with the aid of a cane, but is anxious to get back to wearing out his tailor made riding outfit . . . George and Mrs. Ulvestad flew to Florida to attend the wedding of their son. As long as his son has wings, George feels that he might just as well get the feel of the air also . . . After twenty-four years

of practice in one location, our branch president, Iver Oveson, is moving his offices to the Pioneer Bank building. Good luck Iver, we all feel that after a while you will get accustomed to having a number of people around, and not have the lonesomeness of a corner . . . Will be seeing you at the convention.—*Ben Davidson, Branch Correspondent.*

NORTH SUBURBAN

Our colleagues on the North Side are noted for their technique of organizing and executing their yearly formal function. Eddie Bauman, Dick Smith, Fred Barich and their wives were the North Suburbanites in attendance at their recent party which was held, as usual, at the Edgewater Beach Hotel. Some of the other branches could put on a similar function and to assure its success, they could handily use the North Side party as a pattern. The Boys down there really do it up brown . . . George Schnath received the commission of Senior Lieutenant in the Navy . . . Charlie Freeman, Bill Rusch, and Reid Bronson have sons who are now attending dental school . . . The Carl Schramms had the misfortune of losing their infant daughter at the time of Carl's call to the service. Our condolences are extended to this fine little family . . . At long last, Lt. Wickliffe Speaks, U.S.N. has departed for Great Lakes where he will start life anew in a different kind of uniform . . . Stan Richards reported to Camp Robinson, Arkansas, as a First Lieutenant in the dental corps, U.S.A. . . . Bob Gaylord, a former North Suburbanite, who now resides and practices in Highland Village, Texas, dropped in to say hello between planes. He had just finished a refresher course in Orthodontics at New York. Bob wished to be remembered to all of his friends. After two years in the Lone Star state, he has become a confirmed Texan. A bit of native oil was detected about his person . . . Give us the news and we'll give it right back

to you.—*Frederick T. Barich, Branch Correspondent.*

NORTH SIDE

The North side dinner dance was really a super duper, in fact it was swell. The congeniality and conviviality was nicely apportioned, and when Harold Oppice brought out his pipe, we also had a fireside atmosphere. In the other corner Julius Ferm was drinking his straight and black. I think he set some kind of a record in coffee drinking, anyway, I understand he gave the hotel one of his coffee coupons. Everyone was there, our most distinguished guests being President Willis Bray and his wife. Space will not permit naming all the guests, however, the hall was ceremoniously closed by those late stayers: G. N. Youngson, Robert Smith, Ernest Price, Frank Offenlock, Russell Boothe, R. G. Walser, myself, and our respective wives . . . On February 1, we heard Balint Orban, M.D., D.D.S., Professor of Dental Pathology and Research in Histopathology of the Chicago College of Dental Surgery, speak on "Some New Methods of Periodontal Treatment." Dr. Orban was very interesting and the new movie he showed is in itself a work of art and very instructive. If I repeat my emphasis it is because I think no member should miss seeing and hearing Dr. Orban. Whether he is a Histopathologist or a Practicing Dentist Dr. Orban is a great fellow and a grand lecturer. Be sure and look him up during the Midwinter Meeting. In brief, Dr. Orban insists that all pockets be removed by any method suitable, but remove them. Dr. Orban also states that the term periodontoclasia is ambiguous and should not be used, so he has arranged a new classification which I will not attempt to repeat . . . Our president, Julius Ferm, named the nominating committee which will select and nominate the officers for the coming year. The committee is as follows: Harold Oppice, chairman, Art Blim and Fred Haberle . . . Dan Peterson just returned from

Mexico looking brown as a berry and fit for work. He said after eating for a week in the same dining room he finally discovered that the gentleman at the next table was our old friend O. A. Helmer . . . Ed Luebke recently spent ten days at his home in Shawano and reports immense snow drifts and plenty of cold weather . . . We are sorry to hear of the death of Walter Mayland's brother and extend him our deepest sympathy in his bereavement.—*Orrin G. Baumgarth, Branch Correspondent.*

WEST SIDE

The next meeting of the West Side Branch will be held March 9. An excellent program is being planned by your chairman, William R. Gubbins, providing the annual election will be over within the usual time . . . Now that the Arcolian and Lawndale Dental Groups, having remained inactive during the present season chiefly because of gasoline rationing, etc., are planning to resume their meetings again, the West Side Forum might be encouraged to establish a part of its former ambitious program . . . Examination of the preliminary program of the Midwinter Meeting seems to indicate that much of the West Side's talent has been overlooked . . . Former President George F. Barnes, visited his West Side friends during the week-end of January 30-31 . . . Past President Emory J. Lusk, has resumed practice at his old address . . . George N. Frost was informed by the International Red Cross that his son, previously reported as shot down and killed while flying over France, is now a prisoner of war . . . Joseph L. Zieff has been transferred from the hospital at Craig Field, Selma, Alabama, to the general hospital at Atlanta, Georgia for further observation . . . Arthur D. Tessler has been transferred from Camp Polk, Louisiana to New Orleans . . . Ernest Brogmus is now instructing his second class in First Aid. Ernie is a very able and enthusiastic instructor . . . William A. Whittaker discovered his office flooded on his arrival

there one sub-zero morning in January . . . Leo J. Cahill and family left February 14 to enjoy a month's vacation at Miami, Florida. Leo, I hope you find the black-outs enjoyable . . . Frank J. Kropik will write the column for the next issue. Phone Seeley 8500, ask for Children's Dental Clinic.—*George F. Vogt, Branch Correspondent.*

GENERAL SESSIONS

(Continued from page 5)

was Chief Geographer for the Tennessee Valley Authority and has been connected with the Encyclopedia Britannica in the same capacity. Professor Strevey taught History at the University of Chicago and at Wisconsin before coming to Northwestern. He has travelled extensively in the Far East, Eastern Europe and Russia. He has given a series of lectures as part of the War Department's training program. Professor Hudson will endeavor to prove, in his lecture, that there are only certain parts of the world endowed by nature with great amounts of material resources. Largely because of these assets they are the regions where things happen. These areas include Eastern North America, both Eastern and Western Europe, India, the East Indies and South Eastern South America. Events seem to pile up in these places, events that make news. If one could find out just what policies are to be followed in these pivotal regions, both governmental and political, he would be in a position to foretell world affairs. Professor Strevey will point out the cultural patterns of modern action, in both Germany and Japan, which we should understand and with which we will have to deal when the war is over. Each of these speakers is thoroughly versed in his subject and has an interesting way of presenting it.

MINUTES

(Continued from page 14)

ing back to Chairman Willis J. Bray. Dr. Bray adjourned the meeting to the clinic program which was concluded at 10:45 p.m. Approximately 350 members were present.

Respectfully submitted,

Harold W. Oppice, Secretary.

These **TEETH**
 Have that Important Ample Food Table
and Narrow Contacting Surfaces, Too!

Their scientifically designed occlusal surfaces assure comfortable, stable, efficient dentures.

FOR PROPER mastication, an ample food table is a necessity. The scientific engineering of Trubyte New Hue 20° Posteriors provides the essentials for comfortable, stable, efficient dentures . . .

- Ample Food Table
- Miniature, Fine, Interacting Knives
- Narrow Contacting Surfaces
- Low Cusps

For Dentures Stable in Action . . .

TRUBYTE *New Hue* **20° POSTERIOR**

The narrow occlusal contact permits maximum comfort by minimizing occlusal trauma.

An ample food table follows Nature's plan for proper mastication.

THE DENTISTS' SUPPLY COMPANY OF NEW YORK

VITALLIUM

... THE FRIENDLY ALLOY

Assuredly, Vitallium — the *original* and only true Cobalt-Chromium alloy — has earned the designation "friendly alloy". It is light and strong and provides service, comfort and cleanliness to a degree generally unattained in other cast dentures. The permanent lustre of Vitallium conforms with the beautiful in prosthetic dentistry. Its smooth, hard surface is virtually self-cleansing. Its perpetually new jewel-like finish will not dull, stain or tarnish under any oral service. It is impervious to odors and is unaffected by mouth fluids. It may be repaired, added to or rebased. It is accepted as a superior metal for the internal fixation of bone fractures.

Prescribe VITALLIUM — it makes friends of patients.

See Patients Wearing Vitallium and Acrylic Restorations At Our Clinic

Wednesday Afternoon, February 24

At the Exhibitors' Clinics to be held in connection with the Chicago Mid-Winter Meeting on Wednesday Afternoon, February 24, we will present two patients; one wearing a practical Vitallium restoration. You will be interested in these practical prostheses. We cordially invite you to attend this clinical demonstration.

At our Booth No. 115, in the General Exhibit Hall, we will show throughout the meeting a wide variety of practical cases including Vitallium, gold and full dentures; also a complete assortment of Austenal Teeth by the Micromold Process—the only teeth with the natural lingual and the advanced molded interproximal retention.

We will have on display an exhibit of acrylic jackets, bridgework, and bite-raising restorations, demonstrating the most recent advancements in esthetic and skilled laboratory constructions.

PAY DIVIDENDS

Keep in mind that service cannot exceed the physical efficiency of the metal used. That is why gold is acknowledged to be superior. It is well worth the slight added cost to you and to your patients.
